

## Fall 2017 Prayer Requests

*For the past two years, the Renovaré family has been praying for three particular things: provision, protection, and empowerment.*

**Provision:** The team thanks God for those who support the ministry with their prayers and finances. We ask the Lord to raise up new financial partners for our present and future needs so that we can stay in step with what the Holy Spirit is calling our ministry to do.

**Protection:** May God protect the Renovaré family in all manner of spiritual warfare—whether made manifest in outright satanic attacks, spiritual discouragement, or the vicissitudes of living in a fallen world. We especially ask for his protection over the Renovaré board members who are struggling with the devastation wrought by Hurricane Harvey in the Houston area, as well as two of our staff who have had to evacuate their families from their Florida homes in anticipation of Hurricane Irma.

**Empowerment:** We pray that God will empower us to continue his work and that he will grant us wisdom to know his will for our next steps.

*We would also appreciate your prayers over the work that Renovaré is doing.*

**The Fellowship of the Burning Heart:** After years of seeking ways to help like-minded souls to come together in face-to-face community, we are excited to see what God has in store for our newest initiative, a lay order called The Fellowship of the Burning Heart. Please pray with us for wisdom as we work to bring this idea into reality.

**The Renovaré Book Club:** We are delighted and grateful to see how God has grown our online Book Club community over the past four years. Last season we had almost 1100 members! As we prepare to launch another season this October, please pray with us that our newest endeavor with this club—facilitating in-person group meet-ups—is a blessing to our members and the Renovaré community at large.

**The Renovaré Institute:** Our Seattle Cohort started in August. The students have their first residency in October. Please pray with us for God's anointing hand over this time for faculty and students—that there is rich fellowship, that hearts and minds are filled with his goodness, and that all travel to and from the residency is hedged before and behind in safety. Please pray the same for our Boston Cohort, who will have their third residency in November.

*Lastly, please pray for our staff, especially ...*

**Chris:** Please pray for Chris's wife, Deb, and his mom—that God heal and protect them—and for Chris as he takes care of them both.

# Renovaré

**Carolyn:** Please pray for Carolyn's husband, Mark, who is facing back surgery and her mom, Joy, who has been in the hospital with grave health concerns since early July. Please pray for Carolyn as she cares for them both.

**Nathan:** Please pray for Nathan, his wife Christy who suffers from fibromyalgia, and his children—one of whom is autistic.
